

Our Commitment to Inclusive Production

People with disability make up 1 in 5 of the population, yet this diversity is significantly underrepresented in screen content. We believe in being part of the solution to change this and create content that truly reflects our diverse society.

We are committed to making inclusive production business as usual, and so we work closely with **Inclusively Made** to ensure that people with disability are authentically represented both in front of and behind the camera across our productions.

Inclusion Planning

For each production, we will develop a comprehensive Inclusion Plan that outlines how to achieve authentic inclusion across eight key areas:

Inclusive Concept Development

Inclusive Casting

Inclusive Mentoring

Inclusive Crew Roles

Accessible Documentation

Accessible Locations

Safe & Inclusive Environment

Accessible Broadcasting

Inclusion Portal

If required, we will give you access to our Inclusion Portal to create or view Inclusion Plans for productions. You will receive a direct login link to access. There are short demo videos available online if required, but the portal is very easy to use.

Helpful Resources

Our partners (you!) have access to Inclusively Made's comprehensive Champions Portal with a plethora of helpful resources to help make inclusive production easy:

www.inclusivelymade.com/champions

Password: *redhats*

Thank you for working with us to create productions that authentically represent and include people with disability, contributing to a more inclusive media landscape for everyone.
